Patient Intake Form
Child

Welcome to ITH this is the first step on your path to wellness and we look forward to meeting with you in person.

We have created this comprehensive intake form for you to fill out in advance of coming to see us. We realise it might take some time for you to go through, but this will give you an opportunity to think and remember about your past medical history, about your current medical concerns and reasons for seeking our help. Having all this information on paper will be very helpful when you come in, and we will review this together during your medical or nutritional consultation. We have learned that it is often hard for our patients to remember everything when sitting in front of us!
